[Please register here.](#)

(link:https://docs.google.com/forms/d/e/1FAIpQLSc1VbzKvC6JIK_aT4ZAMaOBwt8HoaOKsws9ctu23yKL5X19uQ/viewform) ***Child care and language interpretation will be provided at this event, and sign up is through the registration link above.***

These [Community Forums](#) (link: <https://www.fcps.edu/strategicplanning-communityforums>) provide families, students, staff, and community members with an opportunity to participate in and influence the direction of FCPS' new Strategic Plan. The goal is to have the final strategic plan by June 2023. [Learn more about our strategic planning process here.](#) (link: <https://www.fcps.edu/strategicplanning>) If you can't join the Dranesville Forum, please check out the [schedule of Community Forums](#), including several virtual options, and register for one that is most convenient for you.

What Happens at a Strategic Planning Community Forum?

- Community Forums will provide families, students, staff, and community members with an opportunity to review student achievement, access, and perception data and identify both strengths and challenges within the data.
- Working in small groups, participants will use research-based goals as a framework to transition their observations into recommended goals for the strategic plan that are focused on our desired future state for students.
- As a culminating activity, participants will identify the one guarantee they would like FCPS to make regarding our students' education.
- The data from the Community Forums will be synthesized and that information will be shared with the Core Planning Team to incorporate those recommendations into finalized strategic plan goals.

What Can I Do to Prepare?

It's not necessary to do anything in advance. We want you to bring your thoughts and experiences to the discussion. If you'd like to review in advance, the [data reports shared at the Community Forums are available on the Strategic Planning website.](#)
